EXPLORING YOUR TALENTS

- **What is talent?** How to get more out of your talents?
- **Strength based perspective** as opposed to gap based
- **Exploration** of your talents
- **Awareness** and developing energizing moods
- **Find solutions** and take responsibility for your weaknesses

CHILD-PARENTS RELATIONSHIP

It's a natural desire for all of us to let our children shine. How can we explore in an open way **the talents of our child**, and how can children **recognise and integrate** it themselves?

BURNOUT, BORE-OUT & TALENT

It's often when it is too late that people get to realise the deep **impact of their job** on their well-being. How can we avoid these low moments and overall this **loss of energy as well as its disastrous consequences?**

BEING IN COUPLE WITH TALENT

There are many good reasons why each of us **love and appreciate one's partner**. However it is sometimes difficult to get to know what it really is. The whole dynamics of talents in a couple makes sometimes that **loving and complementing relationship** stumble. Let's explore how to manage this dynamics.
